Doride

DESIGN BY:

2009

MATERIALS:

Steel, hydroformed metal, polycarbonate

DESCRIPTION:

"The leaf is a stroke of a pen, a soft vertical wave in flux, a fluid gesture that changes to vary light – a zoomorphic form that I would describe as digital nature." Materials: steel base; structure in hydroformed metal; anti-dazzle louvre in thermoplastic material.

A joint along the vertical lamp development allows a rotation until 350°, adjusting the light emission and assuming different shapes in the space. Touch dimmer placed on the stem.
