

# Alborán 5863 by MANTRA

ARCHITONIC ID 1495493

## CONCEPT

Alborán follows the line of minimalism that defines the style of the designer, another concept of pure lines where the effect of light prevails over form. Once again, Hugo Tejada uses natural elements as a source of inspiration. On this occasion the movement of the sea and the reflections created by the projection of light serve as an inspiring element to create the lamp Alborán. The light effect is the key element, the composition at different heights of its metallic screens allows light to flow between them creating a degradation of intensities with great subtlety and elegance, a warm and friendly object that will not go unnoticed.

## KEY FACTS

**Product:** Alborán 5863  
**Family:** Alborán  
**Manufacturer:** MANTRA >  
**Designer:** Hugo Tejada >  
**Order number:** 5863  
**Architonic ID:** 1495493  
**Country:** Spain  
**Launched:** 2017

## PRODUCT DESCRIPTION

E27 MAX 1x40W - 220/240V (no incl.)  
Textured White Metal  
White Wire
