

Mantra M5140 Organica Pendant 9 Light G9

Gloss White Polished Chrome

Mantra M5140 Organica Pendant 9 Light G9 Gloss White Polished Chrome

A stunning ceiling pendant suitable for a range of contemporary decors. A true elegant design and matching fittings are available.

Mantra M5140 Organica Pendant 9 Light G9 Gloss White Polished Chrome

Organica's design has been inspired by the natural elements of marine formations. The white polymer shapes are sculpted to reflect the appearance of coral and natural sponges. The porous structures are transferred to the fittings in the form of multiple cutouts in various irregular shapes. This imitation creates wonderful and tranquil shadows when the fittings are illuminated and an intricate feature when turned off. Organica is a comprehensive collection offering a range of pendants, ceiling, wall and table lamps. The white polymer domes and globes are perfectly offset by the polished chrome detail. Organica is an elegant and transgressive design creating a key subject within the decorative space.

A stunning ceiling pendant finished in white polymer chrome - perfect for contemporary decors. The beautiful design creates beautiful shadows when illuminated which creates an interesting focal point. Height adjustable during installation makes it suitable for various ceiling heights. Can be used with LEDs which are highly energy efficient.
